

Welcome to the 2003 Exemplary Psychiatrist Awards Breakfast

The 2003 Exemplary Psychiatrist Award honors psychiatrists who have made a substantial contribution in serving people with mental illnesses in the field of geriatric psychiatry. These are the doctors that have gone the extra mile with NAMI members and others whether it be in providing quality clinical care for often under-served populations; ensuring the meaningful involvement of family members and consumers in treatment; in advancing research and advocating for adequate services and funding, and other NAMI priorities that help to improve the lives of people with mental illnesses.

Welcome

Jim McNulty
President, NAMI Board of Directors

Remarks

Paul S. Appelbaum, M.D.
President, American Psychiatric Association

Stephen J. Bartels, M.D., M.S.
